PROFESSIONAL OBJECTIVES

To obtain a Master's Degree in Computer and Software Engineering in order to serve in any industry. To obtain a job within any field will challenge me and allow me to use my education and skills in a way that is mutually beneficial to both myself and the employer.

PROFILE

I am an articulate, goal congruent and passionate young man looking to utilize knowledge gained from university. Areas of interest are Graphic and Web Design, coding, and web maintenance. Hard working, team player, self-motivated, communication and interpersonal skills. Easily adaptable and flexible in grasping new concepts, technologies, techniques and tools.
